

Prof. Dr. Miguel Mies

Holds bachelor's and PhD degrees in Oceanography obtained at the Oceanographic Institute of the University of the University of São Paulo (IO-USP). Currently acts as: (i) professor at IO-USP and head of the Coral Reefs and Climate Change Lab (LARC); (ii) research coordinator at the Coral Vivo Project; and (iii) vice-president of the Coral Vivo Institute. Recipient of a FAPESP "Jovem Pesquisador" grant (2025-2030) and a CNPq Research Productivity Fellowship (PQ-C), and serves as a member of the United Nations Pool of Experts.

Has published more than 50 peer-reviewed scientific articles (being first or last author in approx. 55%), has reviewed for more than 40 scientific journals, and holds three national and international scientific awards. Served as an editorial board member for the "Coral Reef Research" chapter of the journal *Frontiers in Marine Science*. Has supervised more than 40 undergraduate students, graduate students, and postdoctoral researchers.

The main lines of research are: coral bleaching and climate change impacts on coral reefs; Symbiodiniaceae molecular biology; reproduction and larval development of reef organisms; and coral trophic ecology.

Last updated: August 7th, 2026

Professional Address Oceanographic Institute - University of São Paulo
Praça do Oceanográfico, 191 - Cidade Universitária, room 137
05508-120 São Paulo, SP - Brazil
Digital identifiers ORCID (0000-0001-8925-7037), Google Scholar (TPlIoUgAAAAJ), ResearchGate (Miguel-Mies-2), Scopus (54785026800), Web of Science (K-1074-2012)

Formal Education/Degrees

- 2012 - 2017** Doctorate in Biological Oceanography, PhD degree
University of São Paulo (USP) - Brazil
Advisor Prof. Paulo Yukio Gomes Sumida
Co-advisor Prof. Marie-Anne Van Sluys
Funding Coordenação de Aperfeiçoamento de Pessoal de Nível Superior (CAPES)
Conselho Nacional de Desenvolvimento Científico e Tecnológico (CNPq)
- 2005 - 2011** Graduation in Oceanography, Bachelor's degree
University of São Paulo (USP) - Brazil
Advisor Prof. Paulo Yukio Gomes Sumida
Co-advisor Prof. Marie-Anne Van Sluys
Funding Conselho Nacional de Desenvolvimento Científico e Tecnológico (CNPq)

Positions Held

1. Oceanographic Institute of the University of São Paulo
 - Professor (2022 - present)
 - Associate Researcher (2017 - 2022)
2. Coral Vivo Institute
 - Research Coordinator (2019 - present)
 - Member of the board of directors (2024 - present)
 - Vice-president (2022 - 2024 and 2026 - present)
3. Coral Vivo Research Network
 - Associate Researcher (2017 - present)
4. United Nations
 - Member of the Pool of Experts (2025 - present)
5. Eco-Reef Ltda.
 - Founder (2008)
 - Chief Executive Officer (2008 - 2022)
 - Advisory Partner (2022 - present)

2. RESEARCH

- Lemos DEL, Braga F, **Mies M**, Scozzafave MS, Sumida PYGS. **2009**. Induced spawning of the giant clam *Tridacna crocea* (Bivalvia: Veneroida) by means of a serotonin injection through the byssal orifice. World Aquaculture Society - Veracruz, Mexico.

Talks in scientific conferences or similar events (45)

- 2026** From trophic plasticity to holistic trophic profiling: new perspectives on coral ecophysiology. Australian Institute of Marine Science (AIMS) - Townsville, Australia.
- 2026** Coral bleaching and mortality across a 24° latitudinal range in the Southwestern Atlantic during the fourth global bleaching event. International Coral Reef Symposium 2026 - Auckland, New Zealand.
- 2026** Meteoceanographic factors in the mitigation of coral bleaching under climate change scenarios in the South Atlantic. International Coral Reef Symposium 2026 - Auckland, New Zealand.
- 2026** Challenges for coral restoration in Southwestern Atlantic reefs: guidelines for ethical and sustainable practices. International Coral Reef Symposium 2026 - Auckland, New Zealand.
- 2026** How to prepare for an academic faculty selection process. 3rd Post-Docs Meeting of the IO-USP - São Paulo (SP), Brazil.
- 2026** The thermal stress history of South Atlantic reefs reveals increasing intensity, duration, frequency, and likely undocumented bleaching episodes. 27th International SST Users' Symposium and GHRST Science Team Meeting - Online.
- 2025** Coral Vivo Research Network: guidelines and future perspectives. XI Workshop of the Coral Vivo Research Network - Rio de Janeiro (RJ), Brazil. Shared with Adalto Bianchini.
- 2025** Anatomical complexity allows for heat-stressed giant clams to undergo symbiont shuffling at both organism and organ levels. Aquaculture 2025 - New Orleans (LA), USA.
- 2024** Coral bleaching in Brazilian reef environments. Petrobras SMS Conference - Rio de Janeiro (RJ), Brazil.
- 2024** The Coral Vivo Bleaching Monitoring Program and the current bleaching scenario. 2024 Brazilian Reef Encounter - Niterói (RJ), Brazil. Shared with Tito Monteiro da Cruz Lotufo.
- 2023** The 2019 bleaching episode at Southern Bahia: was there recovery? X Workshop of the Coral Vivo Research Network - Porto Seguro (BA), Brazil. Shared with Beatriz Martins Corazza.
- 2023** Future investigations on the Royal Charlotte Bank. X Workshop of the Coral Vivo Research Network - Porto Seguro (BA), Brazil.
- 2023** Directives for the Coral Vivo Research Network. X Workshop of the Coral Vivo Research Network - Porto Seguro (BA), Brazil.
- 2022** The Coral Vivo expeditions to the Royal Charlotte Bank. IX Workshop of the Coral Vivo Research Network - Online.
- 2022** Directives for the Coral Vivo Research Network. IX Workshop of the Coral Vivo Research Network - Online.
- 2022** South Atlantic coral reefs are major global warming refugia and less susceptible to bleaching. XIX Latin America Conference of Marine Science (COLACMAR) - Panama City, Panama.
- 2022** Research at Coral Vivo. Coral Vivo in São Paulo - São Paulo (SP), Brazil.
- 2021** Coral Vivo expedition to the Royal Charlotte Bank. VIII Workshop of the Coral Vivo Research Network - Online.
- 2021** Directives for the Coral Vivo Research Network. VIII Workshop of the Coral Vivo Research Network - Online.
- 2021** Coral reef bleaching: the global disparity in resilience. Cebimário Talks, at the Marine Biology Center (CeBiMar) of the University of São Paulo. Online.

- 2021** South Atlantic coral reefs are major global warming refugia and less susceptible to bleaching. International Coral Reef Symposium 2021 - Online.
- 2021** The use of live feed for the aquaculture of marine organisms. Aquicultura Online 2.0 - Online.
- 2021** The impacts of multiple stressors on coral reefs. XXII Biology Week of the Federal University of Rio Grande (FURG) - Online. Shared with Adalto Bianchini.
- 2020** South Atlantic coral reefs are major global warming refugia and less susceptible to bleaching. Scripps Institution of Oceanography Ecology Seminar Series - Online.
- 2020** Coral reefs: socioeconomic relevance and anthropogenic impacts. II Brazilian Wildlife Conference - Online.
- 2019** The Coral Vivo Research Network. II APA Costa dos Corais Research Seminar - Maceió (AL), Brazil.
- 2019** Directives for the Coral Vivo Research Network. VII Workshop of the Coral Vivo Research Network - Porto Seguro (BA), Brazil.
- 2019** Marine Ornamental Aquaculture. III Week of Aquaculture Engineering of the Federal University of Paraná (UFPR) - Pontal do Paraná (PR), Brazil.
- 2019** Giant Clam Aquaculture. III Week of Aquaculture Engineering of the Federal University of Paraná (UFPR) - Pontal do Paraná (PR), Brazil.
- 2019** Bleaching in Brazilian coral reefs: history and perspectives. IV National Plan of Action for the Conservation of Coral Reef Ecosystems (PAN Corais) - Arraial do Cabo (RJ), Brazil.
- 2019** Evolution, diversity, distribution and the endangered future of the giant clam-*Symbiodinium* association. Aquaculture 2019 - New Orleans (LA), USA.
- 2019** Production in giant clam aquaculture: trends and challenges. Aquaculture 2019 - New Orleans (LA), USA.
- 2018** Coral reef biology and conservation. 2018 FAEF Symposium - Garça (SP), Brazil.
- 2017** The symbiotic relationship between *Symbiodinium* and coral reef larvae: gene expression, fatty acid biochemistry and responses to thermal stress. V Workshop of the Coral Vivo Research Network - Rio de Janeiro (RJ), Brazil.
- 2017** Marine Ornamental Aquaculture. Academic Week of Veterinary Medicine of the Metodista University - São Bernardo do Campo (SP), Brazil.
- 2016** Marine Ornamental Aquaculture in Brazil: Need for research and integration between universities and breeders Aquaculture 2016 - Las Vegas (NV), USA.
- 2016** Production of symbiosis-specific fatty acids by different *Symbiodinium* clades associated with *Tridacna crocea* larvae. Aquaculture 2016 - Las Vegas (NV), USA.
- 2015** Marine ornamental aquaculture: obstacles, progress and Brazilian scenario. Latin America and Caribbean Aquaculture 2015 - Fortaleza (CE), Brazil.
- 2013** Metabolical contributions of different clades of the zooxanthellae *Symbiodinium* sp. to larvae of Bivalvia, Gastropoda and Anthozoa. II Workshop of the Coral Vivo Research Network - Rio de Janeiro (RJ), Brazil.
- 2013** Giant clam aquaculture: constraints. Aquaculture 2013 - Nashville (TN), USA.
- 2013** Occurrence of symbiosis between the zooxanthella *Symbiodinium* sp. and the veliger larva of the giant clam *Tridacna maxima*. Aquaculture 2013 - Nashville (TN), USA.
- 2012** Induced spawning of bivalve molluscs. Fishing Engineering Week of the State University of Santa Catarina (UDESC) - Laguna (SC), Brazil.
- 2011** Induced spawning of bivalve molluscs. Aquaculture Week of the Federal University of Santa Catarina (UFSC) - Florianópolis (SC), Brazil.
- 2011** Successful spawning and possible solution for broodstock mortality in giant clams: a neurotransmitter injection

through the byssal orifice. World Aquaculture Society - Natal (RN), Brazil.
2007 Marine Ornamental Fish. Brazilian Aquarium Conference - São Bernardo do Campo (SP), Brazil.

Session chairing in scientific conferences (5)

- 2025** Chair of the "Giant Clam" session in Aquaculture 2019. New Orleans (LA), USA. Coordinated by World Aquaculture Society.
- 2019** Chair of the "Giant Clam (Tridacna)" session in Aquaculture 2019. New Orleans (LA), USA. Coordinated by World Aquaculture Society.
- 2016** Chair of the "Giant Clam (Tridacna)" session in Aquaculture 2016. Las Vegas (NV), USA. Coordinated by World Aquaculture Society.
- 2015** Chair of the "Ornamentals" session in Latin America and Caribbean Aquaculture 2015. Fortaleza (CE), Brazil. Coordinated by World Aquaculture Society.
- 2013** Chair of the "Giant Clam (Tridacna)" session in Aquaculture 2013. Nashville (TN), USA. Coordinated by World Aquaculture Society.

Scientific conference organization (11)

- 2026** Organization of the 3rd Post-Docs Meeting of the IO-USP. Coordinated by Oceanographic Institute - University of São Paulo.
- 2025** Organization of the 2nd Post-Docs Meeting of the IO-USP. Coordinated by Oceanographic Institute - University of São Paulo.
- 2025** Organization of the XI Workshop of the Coral Vivo Research Network. Rio de Janeiro (RJ), Brazil. Coordinated by Coral Vivo Institute.
- 2024** Organization of the 32nd USP Undergraduate Symposium at the Oceanographic Institute - Coordinated by Oceanographic Institute - University of São Paulo.
- 2024** Organization of the 1st Post-Docs Meeting of the IO-USP. Coordinated by Oceanographic Institute - University of São Paulo.
- 2024** Organization of a symposium during the 2024 Brazilian Reef Encounter: Bleaching in Brazil: past, present, and future. Coordinated by the Coral Vivo Institute.
- 2023** Organization of the X Workshop of the Coral Vivo Research Network. Porto Seguro (BA), Brazil. Coordinated by Coral Vivo Institute.
- 2022** Organization of the IX Workshop of the Coral Vivo Research Network. Online. Coordinated by Coral Vivo Institute.
- 2021** Organization of the VIII Workshop of the Coral Vivo Research Network. Online. Coordinated by Coral Vivo Institute.
- 2021** Member of the scientific evaluation committee for the Brazilian Reef Encounter 2021. Coordinated by the Brazilian Reef Encounter.
- 2019** Organization of the VII Workshop of the Coral Vivo Research Network. Porto Seguro (BA), Brazil. Coordinated by Coral Vivo Institute.

Others (1)

- 2026** Review of Proposals for the USP Call for Support for Scientific Events – 02/2026. Coordinated by the USP Office of

Research Grants

Lead coordinator (2)

2025 - GLO-CORE - The historical GLObal impacts of climate change on COral REefs: the role of refugia and key oceanographical and functional traits (Jovem Pesquisador Grant)

Funding agency Fundação de Amparo à Pesquisa do Estado de São Paulo

Leading Institution University of São Paulo

2025 - The triple planetary crisis on coral reefs in Brazil: global warming as an intensifying agent of the impacts of plastic pollution

Funding agency Fundação de Apoio à Universidade de São Paulo

Leading Institution University of São Paulo

Research collaborator (6)

2025 - Study of specialized metabolites produced by cyanobacteria isolated from South Atlantic corals

Coordinator Prof. Anelize Bauermeister

Funding agency Conselho Nacional de Desenvolvimento Científico e Tecnológico

Leading Institution University of São Paulo

2023 - Using the phylogenetic past to predict climate impacts: ecophysiology of symbiosis and accelerated evolution in coral reef conservation

Coordinator Prof. Samuel Coelho de Faria

Funding agency Fundação de Amparo à Pesquisa do Estado de São Paulo

Leading Institution University of São Paulo

2023 - Ecophysiological trade-offs of corals living in climate refugia

Coordinator Prof. Ronaldo Bastos Francini-Filho

Funding agency Fundação de Amparo à Pesquisa do Estado de São Paulo

Leading Institution University of São Paulo

2022 - Integrating tools and disciplines for the understading of the future of Western South Atlantic shallow-water corals in a changing world

Coordinator Prof. Marcelo Visentini Kitahara

Funding agency Fundação de Amparo à Pesquisa do Estado de São Paulo

Leading Institution University of São Paulo

2022 - 2024 Nutritional and antioxidante enrichment of corals as a tool against multiple anthropogenic stressors

Coordinator Dr. Laura Fernandes Barros Marangoni

Funding agency Central Caribbean Marine Institute

Leading Institution Smithsonian Tropical Research Institute

2022 - 2024 Predicting the effects of climate change on the photosymbiotic organisms associated with Brazilian corals
Coordinator Prof. Carla Zilberberg
Funding agency Fundação de Amparo à Pesquisa do Estado do Rio de Janeiro
Leading Institution Federal University of Rio de Janeiro

Head of research (4)

3. TEACHING

Subjects Taught at IO-USP

Undergraduate (7)

- 2024** - "Biological Oceanography III" (IOB-0169)
- 2024** - "Coral Reefs" (IOB-0175)
- 2024** - "Biology of Marine Invertebrates" (IOB-0177)
- 2023** - "Effects of climate change on marine ecosystems" (IOB-0176)
- 2023** "Data Analysis I" (2100115)
- 2023** "Integrative Oceanography I - Oceanic System" (2100120)
- 2023** "Marine Invertebrates" (IOB-0157)

Postgraduate (3)

- 2025** - "Pedagogical Training in Oceanography" (IOC-5940)
- 2024** - "Experimental Ecology of Marine Invertebrate Larvae" (IOC-5740)
- 2022** - "Reef ecosystems" (IOC-5734)

Subjects/Courses Created at IO-USP (3)

- 2024** "Experimental Ecology of Marine Invertebrate Larvae" course for the Oceanography postgraduate program.
- 2023** "Effects of Climate Change on Marine Ecosystems" course for the Bachelor's Degree in Oceanography program.
- 2023** "Coral Reefs" course for the Bachelor's Degree in Oceanography program.

Co-supervisions (5)

2026 - Marina Gonçalves Andrade. Influence of herbivory on coral recruitment in tropical and subtropical reefs of the Southwest Atlantic. Master's Degree in Oceanography. Oceanographic Institute - University of São Paulo. Co-supervision with June Ferraz Dias.

2022 - 2024 Amanda Escarabichi Bueno Mariano. Monitoring of rocky reefs in the northern coast of São Paulo State: bleaching of *Palythoa caribaeorum* (Cnidaria, Anthozoa) and anthropogenic stressors. Master's Degree in Biological Sciences. Júlio de Mesquita Filho São Paulo State University (UNESP). Co-supervision with Denis Moledo de Souza Abessa.

2020 - 2024 Camila Aya Tanaka Kato. bottlenecks and trends in the commercial production of marine ornamental fish: search for a diagnostic tool for success in larviculture and identification of the reproductive profile of cultivated species. Master's Degree in Oceanography. Oceanographic Institute - University of São Paulo. Co-supervision with June Ferraz Dias.

2016 - 2018 Thomás Nei Soto Banha. The effect of multiple bleaching events on the symbiosis between different *Symbiodinium* clades and the Upside Down Jellyfish, *Cassiopea* sp. Master's Degree in Oceanography. Oceanographic Institute - University of São Paulo. Co-supervision with Paulo Yukio Gomes Sumida.

2014 - 2016 Arthur de Albuquerque Tenório. Shifts between autotrophy and heterotrophy in the reef-building coral *Mussismilia hispida* : an approach using fatty acid trophic markers. Master's Degree in Oceanography. Oceanographic Institute - University of São Paulo. Co-supervision with Paulo Yukio Gomes Sumida.

Undergraduate (22) *Main supervisions (17)*

2026 - Ana Carolina Basile Fardin. The relationship between fish trophic diversity and coral mortality on a global scale. Oceanographic Institute - University of São Paulo.

2025 - Melissa Rodrigues de Moraes. Photosynthetic performance of *Mussismilia hispida* under different health conditions and feeding regimens. Oceanographic Institute - University of São Paulo.

2025 - Giovana Lima de Souza. Bleaching assessment of gonadal tissues and gametes of the South Atlantic corals *Millepora alcicornis* and *Mussismilia harttii* . Oceanographic Institute - University of São Paulo.

2024 - Milena Santos de Lara. Raja Ampat as a climate refugium: oceanographic insights into coral reef resilience. Oceanographic Institute - University of São Paulo.

2024 - Daniela Fernanda Brochero Giraldo. Differential coral cover loss in ecoregions. Oceanographic Institute - University of São Paulo.

2021 - Luiza Peres de Campos. The effects of multiple stressors on the photosynthetic efficiency of South Atlantic, Caribbean and Indo-Pacific reef-building corals. Oceanographic Institute - University of São Paulo.

2024 - 2025 Júlia Yumi Ibanhez. 2023-24 ENSO: bleaching and mortality on Bahia reefs. Oceanographic Institute - University of São Paulo.

2023 - 2025 Mariana Ferreira Acipreste. The history of bleaching and thermal stress at Raja Ampat. Oceanographic Institute - University of São Paulo.

2023 - 2024 Júlia Romero Neves. The storing of photosynthetic product in different organs of giant clams. Oceanographic

Institute - University of São Paulo.

2024 - 2024 Júlia Lima Monteiro de Carvalho. 2023-24 ENSO: bleaching and mortality on marginal reefs. Oceanographic

Institute - University of São Paulo.

2023 - 2024 Anna Beatriz Dias Oliveira Berrettini. The diversity of reef organisms at the Royal Charlotte Bank. Oceanographic

Institute - University of São Paulo.

2021 - 2023 Arthur Loures Choucair Rodrigues de Oliveira. The impacts of climate change on the larva-Symbiodiniaceae association. Oceanographic Institute - University of São Paulo.

2021 - 2022 Kelly Tartas Olaia. The marine aquarium trade's long road towards sustainability. Oceanographic Institute - University of São Paulo.

2021 - 2022 Giovana Aparecida Camargo Damiani. Recent turbidity regimens in Southwestern Atlantic coral reefs. Bachelor's Degree in Biology. Júlio de Mesquita Filho São Paulo State University (UNESP).

2021 - 2021 Giulia Buzzacaro Braz. The 2019 bleaching episode promoted erosion in a major South Atlantic reef builder. Bachelor's Degree in Biology. Mackenzie Presbyterian University.

2020 - 2020 Renata Karina Marconi Marcançoli. The 2019-2020 bleaching episode at the southern Bahia coast. Projeto Coral Vivo.

2014 - 2017 Estela de Almeida Monteiro. The sea slug *Berghia stephanieae* : the symbiosis with zooxanthellae and practical aspects for aquaculture. Oceanographic Institute - University of São Paulo.

Co-supervisions (5)

2024 - 2024 Bárbara Uenoyama da Silva. Chemical characterization of Corals from Ubatuba (São Paulo, Brazil). Oceanographic Institute - University of São Paulo. Co-supervision with Tailisi Hoppe Trevizani.

2019 - 2020 Marcelo de Castro Querido. Response to thermal stress in the acoel-zoochlorella association. Bachelor's Degree in Oceanography. Oceanographic Institute - University of São Paulo. Co-supervision with Paulo Yukio Gomes Sumida.

2017 - 2018 Diego Okuma. The reproductive biology of the genus *Meiacanthus* (Teleostei: Blenniidae). Bachelor's Degree in Oceanography. Oceanographic Institute - University of São Paulo. Co-supervision with June Ferraz Dias.

2017 - 2017 Lucas Lopes Gonçalves. The impact of wild zooplankton on the metamorphosis rate of the ornamental dottyback *Pseudochromis sankeyi* . Bachelor's Degree in Oceanography. Oceanographic Institute - University of São Paulo. Co-supervision with Paulo Yukio Gomes Sumida.

2014 - 2015 Gabriela Cristina Mitsunashi. Differences in the intron/exon structure of the H⁺-ATPase in different *Symbiodinium* clades. Bachelor's Degree in Oceanography. Oceanographic Institute - University of São Paulo. Co-supervision with Paulo Yukio Gomes Sumida and Marie-Anne Van Sluys.

Exchange supervisions (1)

2026 - 2026 Méliissandre Malia Sosefa Malbec. Investigating the influence of thermal stratification on coral heterotrophy in the South-West Atlantic. Oceanographic Institute - University of São Paulo, from Master's program at École Normale Supérieure (France).

FAPESP scholarships awarded to
supervised students and post-
doctoral researchers (18)

Post-doctoral (1) Michelle Amario

PhD (5) Aline Shimada da Cruz, Beatriz Martins Corazza, Camila Aya Tanaka Kato, Giovanna Nascimento D'Aquino Destri, Giulia Buzzacaro Braz

Master's (3) Arthur Loures Choucair Rodrigues de Oliveira, Bianca Espindula Jahn, Mariana Ferreira Acipreste

Undergraduate (9) Anna Beatriz Dias Oliveira Berrettini, Daniela Fernanda Brochero Giraldo, Júlia Yumi Ibanhez, Júlia Romero Neves, Luiza Peres de Campos (2x), Mariana Ferreira Acipreste, Melissa Rodrigues de Moraes, Milena Santos de Lara

Participation in Examination Boards

Faculty hiring (1)

2025 Chair of the committee for hiring a faculty member at IO-USP in the area of "Data Science in Oceanography".

PhD degree (6)

2025 Bruno Henrique de Moraes e Souza. Benthic biodiversity patterns in the deep Southwest Atlantic. Oceanographic Institute, University of São Paulo. Supervisor: Paulo Yukio Gomes Sumida.

2024 Gilberto Bergamo Neto. Diversity and connectivity of polychaetes in different deep-sea habitats in the Santos Basin. Oceanographic Institute, University of São Paulo. Supervisor: Paulo Yukio Gomes Sumida.

2023 Silas Príncipe Candido de Souza. How will Atlantic coral reefs look in the future? Predicted shift in the distribution of key species of shallow reef environments in face of climate change. Oceanographic Institute, University of São Paulo. Supervisor: Tito Monteiro da Cruz Lotufo.

2021 Sérgio Leandro Araújo Silva. Behavioural and reproductive aspects, and spawn, egg and larval description for captive held *Gramma brasiliensis*. Federal University of Santa Catarina (UFSC). Supervisor: Mônica Yumi Tsuzuki.

2021 Juliana da Silva Fonseca. Combined effects of thermal stress and copper exposure on the energy metabolism, trophic behavior and oxidative status of the coral *Mussismilia harttii*. Federal University of Rio Grande (FURG). Supervisor: Adalto Bianchini.

2019 Bruna Louise Pereira Luz. Life history and molecular mechanisms for development and regeneration in *Tubastrea coccinea* (Dendrophylliidae, Scleractinia): an assay for its establishment as a model organism. Federal University of Paraná (UFPR). Supervisor: Marcelo Visentini Kitahara.

PhD evaluation committee (4)

2024 Lucas Nóbrega Delcistia. Comparative investigation of reef cryptic diversity in Brazil through the use of Autonomous Reef Monitoring Structures (ARMS). Oceanographic Institute, University of São Paulo. Supervisor: Tito Monteiro da Cruz Lotufo.

2024 Yuri Ricardo Andrade Aiube. Taxonomic and ecophysiological diversity of coral symbionts from the Abrolhos Bank. Institute of Biology, Federal University of Rio de Janeiro. Supervisor: Paulo Sérgio Salomon.

2022 Gilberto Bergamo Neto. Diversity, ecology and population genetic of deep-water polychaetes in different habitats at the Santos Basin. Oceanographic Institute, University of São Paulo. Supervisor: Paulo Yukio Gomes Sumida.

2020 Silas Príncipe Candido de Souza. Predicted shifts in the distribution of Western Atlantic reef builders in face of climate change. Oceanographic Institute, University of São Paulo. Supervisor: Tito Monteiro da Cruz Lotufo.

Master's degree (9)

- 2025** Cezar Felipe Lugullo Maia de Araújo. Fish herbivory rates and habitat drivers in a tropical reef. Algarve University, Portugal. Supervisor: Nadine Schubert.
- 2024** Luiz de Souza Oliveira. Production of calcium carbonate (CaCO₃) by *Mussismilia hispida* (Verril, 1902) in the subtropical region of the southwest Atlantic. Federal University of São Paulo (UNIFESP). Supervisor: Guilherme Henrique Pereira-Filho.
- 2024** Aline Shimada da Cruz. Comparative physiology of epibiotic diatoms on coral reefs in the Abrolhos reef system: a transcriptomic approach. Federal University of Rio de Janeiro (UFRJ). Supervisor: Paulo Sérgio Salomon.
- 2023** Wildna Fernandes do Nascimento. Massive coral bleaching caused by the 2020 heatwave in northeastern Brazil. Federal University of Rio Grande do Norte (UFRN). Supervisor: Guilherme Ortigara Longo.
- 2023** Valberth Francisco Nunes Costa. Assessment of the ecological status of coral reefs subject to multiple stressors in a Marine Protected Area through ecological indicators and biochemical responses. Federal University of Alagoas (UFAL). Supervisor: Taciana Kramer de Oliveira Pinto.
- 2021** Daniel Castro Martignago. Functional markers in the oocyte of the Brazilian corals *Mussismilia harttii* and *Mussismilia braziliensis*. Federal University of Rio Grande do Sul (UFRGS). Supervisor: Guendalina Turcato.
- 2021** Amanda Pereira de Amaral. Thermal stress influences the viability of the spermatozoa of the coral *Mussismilia harttii*: relationship between morphology, motility, cellular aging and oxidative stress. Nilton Lins University. Supervisor: Leandro Godoy.
- 2020** Jéssica Bleuel. Brazilian corals and global climate change: future projections and vulnerability hotspots. Federal University of Rio Grande do Norte (UFRN). Supervisor: Guilherme Ortigara Longo.
- 2020** Laila Maria de Carvalho. Marine ornamental fisheries: unreported collection and trade in Brasil. Fisheries Institute (IP-SP). Supervisor: Eduardo Gomes Sanches.

Master's evaluation committee (4)

- 2025** Júlia Melo Molina. Invisible diversity to the naked eye: exploring the microbiome associated with *Actinostella flosculifera* (Cnidaria; Anthozoa) and *Cassiopea andromeda* (Cnidaria; Medusozoa). Júlio de Mesquita Filho São Paulo State University (UNESP). Supervisor: Sérgio Nascimento Stampar.
- 2025** Juliana Aparecida Moureira. South Atlantic corals and climate change: the effect of shading on reducing coral bleaching. Federal University of Rio Grande do Norte (UFRN). Supervisor: Edson Aparecido Vieira Filho.
- 2025** Juliano Guerra de Castro. Evolutionary hotspots along the Brazilian coast: are we protecting the most genetically diverse areas of our seas? Federal University of Sergipe (UFS). Supervisor: Ana Paula Siqueira Dornellas.
- 2021** Hayla Paixão Viveiros. In vitro coral generation through cryopreserved semen: strategy for conservation of the endemic species *Mussismilia harttii*. Federal University of Rio Grande do Sul (UFRGS). Supervisor: Leandro Godoy.

Bachelor's degree (10)

- 2025** Christian Diego de Carvalho. Prevalence and parasitic intensity of cestodes from the family Pterobothriidea (Pintner, 1931) in *Micropogonias furnieri* (desmarest, 1823) in the Anchieta Island State Park region and its relation to biological and oceanographic parameters. Oceanographic Institute, University of São Paulo. Supervisor: June
- 2024** Guilherme Wenceslau Piazzaroli Leite. Ascidiars of the Ubatuba coast. Oceanographic Institute, University of São Paulo. Supervisor: Tito Monteiro da Cruz Lotufo.
- 2024** Guilherme Oliveira Souza. Comparison of the mechanisms controlling the dissolution/preservation of calcium

- carbonate in the Santos and Pelotas Basins between 30,000 and 110,000 years. Oceanographic Institute, University of São Paulo. Supervisor: Karen Badaraco Costa.
- 2024** Giovanna Louro Goldemberg. An analysis of the port environmental agenda in relation to ESG parameters. Oceanographic Institute, University of São Paulo. Supervisor: Alexander Turra.
- 2023** Vanessa Regina Silva Xavier. Catástrofe ambiental e ciência oceanográfica: Environmental catastrophe and oceanographic science: the impact of the Mariana tragedy on scientific production and the repercussions of science in the Brazilian traditional media. Oceanographic Institute, University of São Paulo. Supervisor: Christian Millo.
- 2023** Thabata Grecco Oliveira Fonseca. Effects of climate change on the distribution of the macroalgae *Gelidiella acerosa*. Oceanographic Institute, University of São Paulo. Supervisor: Tito Monteiro da Cruz Lotufo.
- 2023** Agatha Todam. Fish for Health: a critical evaluation of the effects of shrimp consumption on human health. Oceanographic Institute, University of São Paulo. Supervisor: Daniel Eduardo Lavanholi de Lemos.
- 2022** Edson Cavalcante dos Santos. Carbon source and growth pattern of the deep-sea coral *Paragorgia arborea* in the Davis Strait (North Atlantic). Oceanographic Institute, University of São Paulo. Supervisor: Christian Millo.
- 2022** Amanda Escarabichi Bueno Mariano. Bleaching of *Palythoa caribaeorum* (Cnidaria, Anthozoa) at sites with different levels of anthropogenic impact in APAMLN and ESEC Tupinambás (Ubatuba, São Paulo, Brazil). Júlio de Mesquita Filho São Paulo State University (UNESP). Supervisor: Denis Moledo de Souza Abessa.
- 2022** Letícia May Fukushima. Assessment of the acute toxicity of contaminants associated with petroleum and petrochemical activities on the invasive coral *Tubastraea coccinea*: a contribution to the study of pollution in Brazilian reef environments. Júlio de Mesquita Filho São Paulo State University (UNESP). Supervisor: Denis Moledo de Souza Abessa.

Others (13)

- 2026** Member of the PhD oversight committee for candidate Liseth Vanessa Perenguez Riofrio. Federal University of Santa Catarina (UFSC). Supervisor: Mônica Yumi Tsuzuki.
- 2025** Member of the PhD (Oceanography) selection committee for candidate Fernanda Pasetto Corrêa. Oceanographic Institute of the University of São Paulo. Supervisor: Paulo Yukio Gomes Sumida.
- 2025** Member of the PhD (Oceanography) selection committee for candidate Ana Luiza Portezani Brandão. Oceanographic Institute of the University of São Paulo. Supervisor: Amanda Gonçalves Bendia.
- 2025** Member of the PhD (Oceanography) selection committee for candidate Leandro Fernandes Antonio Santos. Oceanographic Institute of the University of São Paulo. Supervisor: Alexander Turra.
- 2025** Member of the PhD (Oceanography) selection committee for candidate Kárita Cristine Rodrigues dos Santos. Oceanographic Institute of the University of São Paulo. Supervisor: Amanda Gonçalves Bendia.
- 2025** Member of the PhD (Oceanography) selection committee for candidate Jonathas Ferreira dos Santos. Oceanographic Institute of the University of São Paulo. Supervisor: Tito Monteiro da Cruz Lotufo.
- 2025** Member of the PhD (Oceanography) selection committee for candidate Monique Torres de Queiroz. Oceanographic Institute of the University of São Paulo. Supervisor: Alexander Turra.
- 2024** Member of the PhD (Oceanography) selection committee for candidate Maria Eduarda Castro do Nascimento. Oceanographic Institute of the University of São Paulo. Supervisor: Vivian Helena Pellizari.
- 2024** Member of the PhD (Oceanography) selection committee for candidate Érico Silva Lima Gomes dos Santos. Oceanographic Institute of the University of São Paulo. Supervisor: June Ferraz Dias.

- 2024** Member of the PhD (Oceanography) selection committee for candidate Renato Gamba Romano. Oceanographic Institute, University of São Paulo. Supervisor: Vivian Helena Pellizari.
- 2024** Member of the evaluation committee overseeing the transition from the master's to the PhD (Oceanography) program for Júlia Petroski Olher. Oceanographic Institute, University of São Paulo. Supervisor: Maria de los Angeles Gasalla.
- 2023** Member of the PhD (Oceanography) selection committee for candidate João Pedro Mancio Amorim. Oceanographic Institute of the University of São Paulo. Supervisor: Ilson Carlos Almeida da Silveira.
- 2023** Examination board member for the selection of a substitute professor at the Department of Biological Oceanography of the Oceanographic Institute of the University of São Paulo.

Other Teaching Activities

Stand-alone classes or lectures

(33)

- 2026** "How to draft a response to a decision by FAPESP regarding a research fellowship application " - São Paulo (SP), Brazil. Coordinated by the Oceanographic Institute of the University of São Paulo.
- 2025** "The advance of coral bleaching in Brazil and in the world" during the course "Ecology and evolution of reefs: from individuals to ecosystems"- Graduation course Federal University of Ceará. Tamandaré (PE), Brazil. Coordinated by Prof. Marcelo Oliveira Soares/UFC.
- 2025** "Coral Reef Fish Life Cycles" during the course "Marine Fish Life Cycles and Ecology" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. June Ferraz Dias/IO-USP.
- 2024** "Coral Reef Fish Life Cycles" during the course "Marine Fish Life Cycles and Ecology" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. June Ferraz Dias/IO-USP.
- 2023** "Marine Ornamental Aquaculture" during the course "Aquaculture Practices" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Vicente Gomes/IO-USP and Prof. Daniel Lemos/IO-USP.
- 2022** "Benthic-pelagic coupling" during the course "Pelagic System" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Camila Signori/IO-USP.
- 2022** "Impacts and resilience of Brazilian reefs" for Biological Sciences graduate students of the State University of Rio de Janeiro. Online. Coordinated by Prof. Beatriz Fleury/IBRAG-UERJ.
- 2022** "Coral Reef Fish Life Cycles" during the course "Marine Fish Life Cycles and Ecology" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. June Ferraz Dias/IO-USP.
- 2022** "Ethics when discarding fish" for the training course "Ethical Principles and Handling of Animals in Research and Teaching". Online. Coordinated by University of São Paulo.
- 2022** "Quarantine and transfer from quarantine to research" for the training course "Ethical Principles and Handling of Animals in Research and Teaching". Online. Coordinated by University of São Paulo.
- 2022** "The origins of fish used in research and teaching activities" for the training course "Ethical Principles and Handling of Animals in Research and Teaching". Online. Coordinated by University of São Paulo.
- 2021** "Brazilian reefs: impacts and resilience" for Biological Sciences undergraduate students of the Federal University of Rio de Janeiro. Online. Coordinated by Prof. Carla Zilberberg/NUPEM-UFRJ.
- 2021** "Marine Ornamental Aquaculture" for Biological Sciences undergraduate students of the University Center of Adamantina. Online. Coordinated by Regina Ruete/UNIFAI.

- 2021** "Coral Reefs: Biology and Conservation" for Biological Sciences undergraduate students of the Federal University of Triângulo Mineiro. Online. Coordinated by Prof. Luciana Segura/UFTM.
- 2021** "Coral Reef Fish Life Cycles" during the course "Marine Fish Life Cycles and Ecology" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. June Ferraz Dias/IO-USP.
- 2020** "Coral Reef Fish Life Cycles" during the course "Marine Fish Life Cycles and Ecology" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. June Ferraz Dias/IO-USP.
- 2019** "Scientific Writing" during the course "Marine Larval Ecology" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Paulo Yukio Gomes Sumida/IO-USP.
- 2019** "Experimental Design" during the course "Marine Larval Ecology" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Paulo Yukio Gomes Sumida/IO-USP.
- 2019** "Marine Larval Aquaculture" during the course "Marine Larval Ecology" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Paulo Yukio Gomes Sumida/IO-USP.
- 2017** "Coral Reefs" during the course "Benthic System" - Undergraduation course IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Paulo Yukio Gomes Sumida/IO-USP.
- 2017** "Scientific Writing" during the course "Marine Larval Ecology" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Paulo Yukio Gomes Sumida/IO-USP.
- 2017** "Experimental Design" during the course "Marine Larval Ecology" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Paulo Yukio Gomes Sumida/IO-USP.
- 2017** "Marine Larval Aquaculture" during the course "Marine Larval Ecology" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Paulo Yukio Gomes Sumida/IO-USP.
- 2016** "Marine Ornamental Aquaculture" during the course "Fisheries Biology" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Marcelo Melo/IO-USP.
- 2016** "Use of zooplankton in aquaculture" during the course "Zooplankton Ecology" - Undergraduation course IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Luz Amelia Vega-Pérez/IO-USP.
- 2016** "Coral Reefs" during the course "Benthic System" - Undergraduation course IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Paulo Yukio Gomes Sumida/IO-USP.
- 2015** "Scientific Writing" during the course "Marine Larval Ecology" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Paulo Yukio Gomes Sumida/IO-USP.
- 2015** "Experimental Design" during the course "Marine Larval Ecology" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Paulo Yukio Gomes Sumida/IO-USP.
- 2015** "Marine Larval Aquaculture" during the course "Marine Larval Ecology" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Paulo Yukio Gomes Sumida/IO-USP.
- 2014** "Symbiosis in Corals" during the course "Marine Invertebrates" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Paulo Yukio Gomes Sumida/IO-USP.
- 2012** "Marine Ornamental Aquaculture" during the course "Alternative Technologies for the Exploration and Use of Marine Resources" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Frederico Brandini/IO-USP.
- 2011** "Giant Clam Aquaculture" during the course "Marine Zooplankton" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Luz Amelia Vega-Pérez/IO-USP.
- 2009** "Giant Clam Aquaculture" during the course "Aquaculture" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Daniel Lemos/IO-USP.

Assessment of PhD and Master's plans (7)

- 2025** Assessment of the PhD plan for University of São Paulo candidate João Vitor Langorte Bueno. Coordinated by Oceanographic Institute - University of São Paulo.
- 2025** Assessment of the PhD plan for University of São Paulo candidate Luana Petri Fucks. Coordinated by Oceanographic Institute - University of São Paulo.
- 2025** Assessment of the Master's plan for University of São Paulo candidate Bárbara Uenoyama da Silva. Coordinated by Oceanographic Institute - University of São Paulo.
- 2024** Assessment of the PhD plan for University of São Paulo candidate Heloísa de Cia Caixeta. Coordinated by Oceanographic Institute - University of São Paulo.
- 2024** Assessment of the Master's plan for University of São Paulo candidate Ingra Araújo Oliveira Queiroz. Coordinated by Oceanographic Institute - University of São Paulo.
- 2024** Assessment of the Master's plan for University of São Paulo candidate Luiza Soares Ferreira Guimarães. Coordinated by Oceanographic Institute - University of São Paulo.
- 2023** Assessment of the Master's plan of activities for Universidade Federal Rural de Pernambuco (UFRPE) candidate Natanael Cícero. Coordinated by the Universidade Federal Rural de Pernambuco (UFRPE).

Miscellaneous (12)

- 2026** Review of the accreditation of the course "Marine trophic webs in a changing ocean: complexity, interactions, and emerging dynamics" for integration in the Oceanography graduation program. Coordinated by Oceanographic Institute - University of São Paulo.
- 2024** Review of the accreditation of the course "Biological Oceanography of Polar Ecosystems" for integration in the Oceanography graduation program. Coordinated by Oceanographic Institute - University of São Paulo.
- 2024** Member of the IO-USP Evaluation Committee for the USP "Outstanding Thesis" Award. Coordinated by Oceanographic Institute - University of São Paulo.
- 2023** Assessment of projects for the Institutional Undergraduate Scholarships Program (PIBIC). Coordinated by the National Council for Scientific and Technological Development (CNPq).
- 2023** Assessment of two projects for the University of São Paulo's Unified Scholarships Program (PUB). Coordinated by University of São Paulo.
- 2023** Formulation of the syllabi for the Integrative Oceanography I and Integrative Oceanography II courses for the Bachelor's Degree in Oceanography program. Coordinated by Oceanographic Institute - University of São Paulo.
- 2023** Assessment on the candidate course "Genetics Applied to Biological Oceanography" for integration in the Oceanography graduation program. Coordinated by Oceanographic Institute - University of São Paulo.
- 2022** Judging of student oral presentations at the 21st University of São Paulo Undergraduate Research Symposium. Online. Coordinated by University of São Paulo.
- 2021** Judging of student oral presentations at the 20th University of São Paulo Undergraduate Research Symposium. Online. Coordinated by University of São Paulo.
- 2021** Assessment on the candidate course "Plankton Secondary Production" for integration in the Oceanography graduation program. Coordinated by Oceanographic Institute - University of São Paulo.
- 2019** Judging of student oral presentations at Aquaculture 2019. New Orleans (LA), USA. Coordinated by World

Aquaculture Society.

2012 Judging of student abstracts for Aquaculture 2013. Nashville (TN), USA. Coordinated by World Aquaculture Society.

Teaching assistant (7)

2019 "Marine Larval Ecology" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Paulo Yukio Gomes Sumida/IO-USP.

2017 "Marine Larval Ecology" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Paulo Yukio Gomes Sumida/IO-USP.

2016 "Autoecology and Life Cycle of Marine Organisms" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Paulo Yukio Gomes Sumida/IO-USP.

2015 "Autoecology and Life Cycle of Marine Organisms" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Paulo Yukio Gomes Sumida/IO-USP.

2015 "Marine Larval Ecology" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Paulo Yukio Gomes Sumida/IO-USP.

2014 "Marine Invertebrates" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Paulo Yukio Gomes Sumida and Prof. Luz Amelia Vega-Pérez/IO-USP.

2011 "Marine Zooplankton" - Undergraduation course at IO-USP. São Paulo (SP), Brazil. Coordinated by Prof. Luz Amelia Vega-Pérez/IO-USP.

4. OUTREACH

Short Courses (18)

2025 "Coral Reefs". Brasília (DF), Brazil. Independent organization.

2025 "Climate Change", during the XX Oceanography Week. Coordinated by the Oceanographic Institute of the University of São Paulo.

2024 "Coral Reefs". Belo Horizonte (MG), Brazil. Independent organization.

2023 "Coral reefs and their structural response to anthropogenic pressures", during the V Brazilian Symposium on Marine Geology and Geophysics. Coordinated by the Oceanographic Institute of the University of São Paulo.

2023 "Coral reefs: impacts and conservation", together With Ronaldo Francini-Filho, at the XXVI Biology Week of the University of São Paulo. Coordinated by Biosciences Institute of the University of São Paulo.

2022 Co-organization and ministration of two classes in the "Blue Tourism" outreach course offered to tour divemasters: i) coral reef bleaching: the global disparity in resilience; and ii) the activities of the Coral Vivo Research Network. Online. Coordinated by Coral Vivo Institute.

2021 "Coral Reefs". Online. Coordinated by EcoSaber, Inc.

2021 "The impacts of multiple stressors on coral reefs". Coordinated by Vivamar, Inc.

2021 "Coral Reefs". Online. Coordinated by EcoSaber, Inc.

2021 "Techniques for keeping live marine organisms". Online. Coordinated by Petz, Inc.

2020 "Coral Reef Biology and Conservation". Online. Coordinated by Mackenzie Presbyterian University.

- 2020** "An Overview of Marine Ornamental Aquaculture". São Paulo (SP), Brazil. Coordinated by the Biosciences Institute of the University of São Paulo (IB-USP).
- 2020** "Coral Reef Biology and Conservation". Online. Coordinated by Federal University of Paraná (UFPR).
- 2019** "Coral Reef Biology, Conservation and Climate Change". São Paulo (SP), Brazil. Coordinated by the Biosciences Institute of the University of São Paulo (IB-USP).
- 2019** "Coral Reef Biology and Conservation". Florianópolis (SC), Brazil. Coordinated by Federal University of Santa Catarina (UFSC).
- 2018** "Coral Reef Biology and Conservation". São Paulo (SP), Brazil. Independent organization.
- 2018** "Coral Reef Biology and Conservation" at the São Paulo Fisheries Institute. São Paulo (SP), Brazil. Coordinated by the São Paulo Fisheries Institute and ABLA Association.
- 2012** "Giant Clam Aquaculture" at the company Sustainable Aquatics. Jefferson City (TN), USA. Coordinated by Sustainable Aquatics, LLC.

Lectures (4)

- 2025** Presentation on "The impacts of multiple stressors on coral reefs and its inhabitants" during the EcoFish Brasil 2025. Coordinated by EcoFish Brasil.
- 2024** Presentation for 'Cine Costão,' part of the Costão Rochoso Project: "The history of bleaching in Brazilian reef environments". Coordinated by Costão Rochoso Project.
- 2024** Class on climate change for students of Rainha da Paz school. Coordinated by Oceanographic Institute - University of São Paulo.
- 2021** Presentation on Coral Bleaching at the X UFABC Biology Week. Online. Coordinated by Federal University of ABC (UFABC).

Debates and Roundtables (18)

- 2026** Debate on "The Ocean: Life Under Threat", during the 2026 São Paulo Ocean Week. Online. Coordinated by São Paulo Ocean Week.
- 2026** Debate on Careers in Oceanography. São Paulo (SP), Brazil. Coordinated by the Oceanographic Institute - University of São Paulo.
- 2025** Online discussion on "The reality of aquarium keeping and climate change". Online. Coordinated by Reef Show, LLC.
- 2025** Debate during the 1st Petrobras Socioenvironmental Meeting of São Paulo. Santos (SP), Brazil. Coordinated by Petrobras.
- 2025** Participation on the "Voices of the Ocean" debate. Online. Coordinated by Correio Sabiá and O Eco.
- 2025** Debate on what is the role of universities in tackling the climate crisis? São Paulo (SP), Brazil. Coordinated by the Geosciences Institute - University of São Paulo.
- 2025** Participation in the debate "Good Socio-environmental Practices in the Ocean Decade: Goal 2 – A Healthy and Resilient Ocean". Coordinated by the Brazilian Coastal Management Agency.
- 2025** Panelist at the Forum "Ocean Sustainability and the Blue Economy". Coordinated by the Advanced Studies Institute - University of São Paulo.

- 2024** Debate on Careers in Oceanography during the XIX Oceanography Week. São Paulo (SP), Brazil. Coordinated by the Oceanographic Institute - University of São Paulo.
- 2022** Debate on Careers in Oceanography during the XVII Oceanography Week. São Paulo (SP), Brazil. Coordinated by the Oceanographic Institute - University of São Paulo.
- 2022** Debate on Climate Change at the Coral Vivo in São Paulo Conference. São Paulo (SP), Brazil. Coordinated by Coral Vivo Institute and Oceanographic Institute of the University of São Paulo.
- 2021** Moderation of a debate on coral reef restoration during the Brazilian Reef Encounter 2021. Coordinated by the Brazilian Reef Encounter.
- 2019** Debate on Oil Spills in Marine Environments. Maceió (AL), Brazil. Coordinated by Instituto Chico Mendes de Biodiversidade.
- 2019** Debate on Research Networks. Maceió (AL), Brazil. Coordinated by Instituto Chico Mendes de Biodiversidade.
- 2019** Debate on Entrepreneurship in Oceanography during the XIV Oceanography Week. São Paulo (SP), Brazil. Coordinated by the Oceanographic Institute - University of São Paulo.
- 2018** Debate on Entrepreneurship in Oceanography during the XIII Oceanography Week. São Paulo (SP), Brazil. Coordinated by Oceanographic Institute - University of São Paulo.
- 2014** Presentation and debate ministered on Marine Ornamental Aquaculture in the Oceanographer's Day. São Paulo (SP), Brazil. Coordinated by Oceanographic Institute - University of São Paulo.
- 2013** Presentation and debate ministered on Entrepreneurship in Oceanography during the XXV Brazilian National Week of Oceanography. São Paulo (SP), Brazil. Coordinated by Brazilian National Week of Oceanography.

Advisor for the Formulation of Public Policies for Marine Conservation (11)

- 2026** Advisory support to the Ministry of the Environment for the development of national regulations on coral restoration in Brazil.
- 2025** Expert member for the 2nd PAN Corais Cycle. Coordinated by Instituto Chico Mendes de Biodiversidade (ICMBio).
- 2025** Contribution to the conservation status assessments for Brazilian Cnidaria. Coordinated by Instituto Chico Mendes de Biodiversidade (ICMBio).
- 2022** Substitute member on the consulting board of the Laje de Santos State Marine Park. Coordinated by Laje de Santos State Marine Park.
- 2022** Contribution to the conservation status assessments for Brazilian Cnidaria. Coordinated by Instituto Chico Mendes de Biodiversidade (ICMBio).
- 2021** Participation in the construction of the proposal for the establishment of the Tartaruga-de-Pente Marine State Park (SP). Coordinated by Fundação Florestal, São Paulo State government.
- 2020** Redaction of a letter to the Brazilian Ministry of Agriculture that led to the conservation and prohibition of the collection of *Gramma brasiliensis* (Actinopterygii). Coordinated by the Brazilian Ichthyology Society.
- 2019** Executive Coordinator for the Evaluation and Supervision Group of the oil spill in the Brazilian coast in 2019 (GT7 - Reefs). Coordinated by the Brazilian Federal Government.
- 2019** Debate on the impact of sunscreens on coral reefs on a Federal Senate Commission. Brasília (DF), Brazil. Coordinated by Brazilian Senate.
- 2019** Consulting on the regulation of Brazilian ornamental fisheries. Brasília (DF), Brazil. Coordinated by ABLA Association.

2018 Consulting on the invasive potential of marine invertebrates. Brasília (DF), Brazil. Coordinated by Brazil's Ministry of Environment.

Organization of Outreach Events (3)

- 2025** Member of the curatorial committee of “Mudamos o Clima, Agora o Clima Muda Tudo” exhibit at COP30. Belém (PA), Brazil. Coordinated by Coral Vivo Institute.
- 2023** Supervision of the student organizing committee for the XVIII Oceanography Week. São Paulo (SP), Brazil. Coordinated by the Oceanographic Institute - University of São Paulo.
- 2022** Organization of the Coral Vivo in São Paulo Conference. São Paulo (SP), Brazil. Coordinated by Coral Vivo Institute and Oceanographic Institute of the University of São Paulo.

Others (5)

- 2024** Science project guidance for Dante Alighieri school student Marina Kneese Strang, alongside Dr. Luciana Saraiva Filippou.
- 2023** Writing of six small scripts for the webseries Amar-o-Mar, about coral reef ecology. Coordinated by Coral Vivo Institute.
- 2023** Discussion on coral reefs and climate change with Saint Paul's School students. Coordinated by the Biosciences Institute - University of São Paulo.
- 2021** Discussion with children that graduated from the environmental education program "Young Guardians". Coordinated by Rede de Conservação Águas da Guanabara (REDAGUA).
- 2020** Consultancy on coral identification for the Catavento Museum. São Paulo (SP), Brazil. Coordinated by the São Paulo State Government.

5. OTHERS

Awards and Nominations (5)

2021 Medal for services provided against marine animal trafficking - Rio de Janeiro Police Department, Rio de Janeiro, Brazil.
2019 Nominated for Best PhD dissertation of 2017-18 (University of São Paulo) - São Paulo, Brazil.
2013 Second Best Student Oral Presentation (World Aquaculture Society) - Nashville, USA.
2011 Second Best performance by a student during the undergraduation course (Oceanographic Institute, University of São Paulo) - São Paulo, Brazil.
2011 Best Student Oral Presentation (World Aquaculture Society) - Natal, Brazil.

Administrative Roles at the University of São Paulo (17)

2023 - 2025 and 2026 - Member of the Research Committee of the Centro de Biologia Marinha-USP.
2025 - Member of the USP Research Council.

- 2025** - President of the Research and Innovation Committee of the IO-USP.
- 2025** - Member of the IO-USP congregation.
- 2025** - Substitute member of the IO-USP selection committee for the post-graduate program in Oceanography.
- 2025** - Coordinator of the IO-USP Marine Experimentation Laboratory.
- 2025** - Substitute member of the IO-USP communications committee.
- 2025** - Substitute member of the IO-USP Council for the Department of Biological Oceanography.
- 2025** - Substitute member of the Research Committee of the Centro de Biologia Marinha-USP.
- 2023** - Member of the IO-USP graduation paper assessment committee.
- 2023** - Substitute member of the IO-USP graduation committee.
- 2023 - 2025** Vice-president of the Research and Innovation Committee of the IO-USP.
- 2023 - 2025** Substitute member of the Coordinating Committee of the Graduate Program of the IO-USP.
- 2023 - 2025** Substitute member of the IO-USP congregation.
- 2023 - 2025** Member of the IO-USP selection committee for the post-graduate program in Oceanography.
- 2023 - 2025** Member of the IO-USP Council for the Department of Biological Oceanography.
- 2022 - 2023** Coordinator of the elaboration of the obligatory internship program for the Bachelor's course in Oceanography at the IO-USP.

Additional Qualifications (2)

- 2013** - Certified diver (Open Water, Advanced, Nitrox): has been out in the field at multiple international (Raja Ampat, Great Barrier Reef, Thailand, Maldives, Panama) and national (Fernando de Noronha, Atol das Rocas, Tamandaré, Maragogi, Recife de Fora, Corumbau, Abrolhos, Guarapari, Cabo Frio, Ilha Grande, Alcatrazes, Ilha Anchieta, Ilha da Queimada Grande, Laje de Santos) reef sites.
- 2011** - Member of the World Aquaculture Society.
